

Automatic Can Opening & Crushing System

AUTOCAN 1000

- **Multi-Function:** Combines can rinsing, opening, emptying, and crushing in one compact, single operator system.
- **Enhanced Hygiene:** Can pre-rinse and water blow-off nozzles prevent contamination.
- **Safety:** Interlocked guarding and safety switches.
- **Pneumatic Cylinders:** Accurate positioning and opening for each can.

The AutoCan 1000 automatic can opener and crusher is an innovative, high-speed system designed to meet the rigorous demands of the food and beverage processing industry. **Capable of processing up to 1000 A10 cans per hour**, this efficient and flexible solution is ideal for high-volume production lines.

Built for reliability, the AutoCan 1000 is constructed from durable 316 stainless steel, ensuring longevity in challenging production environments. Easy-to-change components allow for quick adaptation to different can sizes, making it highly versatile and efficient.

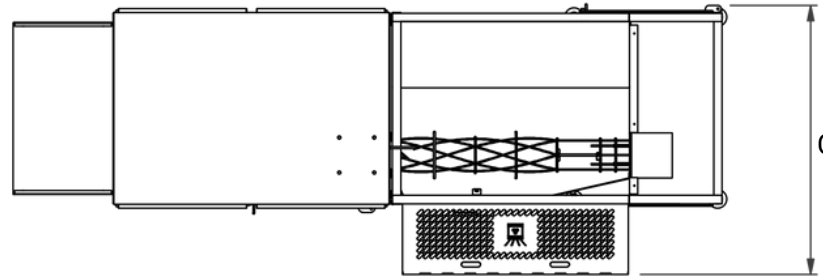

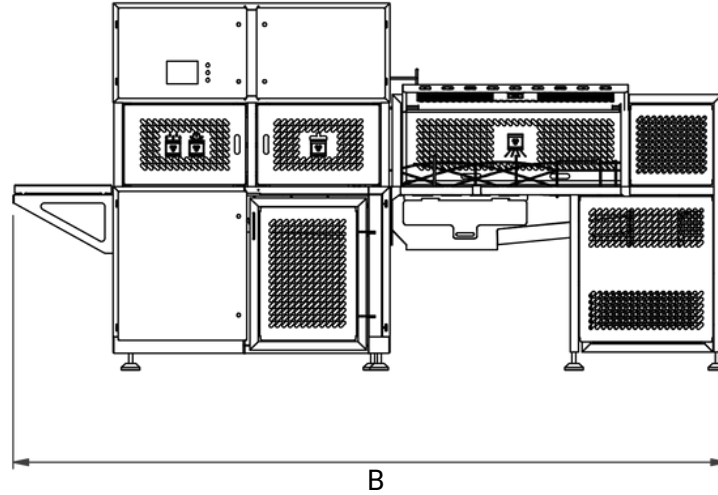

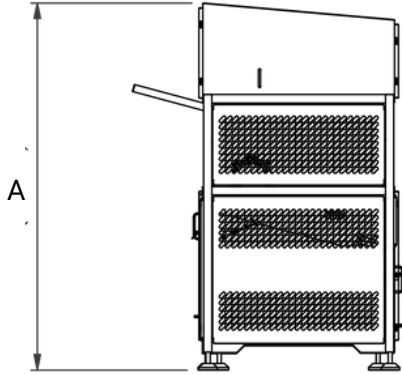

Handles can diameters of 150-155mm and heights ranging from 141- 235mm.

UTILITIES

SERVICE	REQUIREMENT
Electric	480V / 3ph / 60Hz 10A (or to suit local supply)
